Use this guide to help you book your COVID-19 vaccine appointment through our website and online vaccine scheduler.

If all appointments are currently booked, please continue to check the Vaccination Scheduler as we appointments will be added when additional vaccine shipments arrive. As we receive more doses of the vaccine and progress through the risk phases and prioritized groups outlined by the DoD, vaccination will ultimately be more readily available to beneficiaries. The Army is distributing COVID-19 vaccine as soon as it is received and prioritizing recipients of the vaccine based on the CDC’s prioritization framework.

Just like the Flu Vaccine, we always encourage our beneficiaries to get vaccinated at first opportunity, and not wait, as some area hospitals, pharmacies, clinics, and public health departments have already received their next vaccine shipments. We hope to see an increase in vaccine availability in the near future. But for now, we wanted to share the information for those that might choose to seek a local area to receive the vaccine. For the State of Alabama to schedule an appointment visit the online portal at https://alcovidvaccine.gov/. When available, you can get the COVID-19 vaccine from any civilian pharmacy at no charge, even non-network pharmacies but here are some things to keep in mind: Learn more https://tricare.mil/COVIDVaccine
